

This is an example how the club website can work for you.

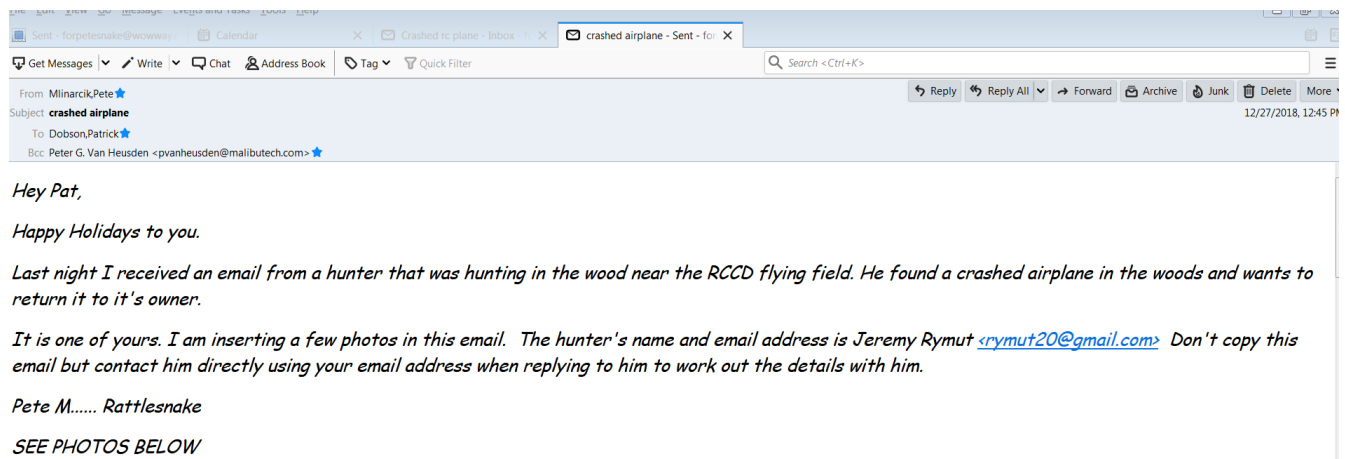

On 12-26-18 the webmaster received an email from a hunter that hunts near the RCCD Flying field. A hunter that is not a club member, but a stranger that took the time to find our website and send an email to the webmaster address. The following is a clip of his email to the webmaster along with a couple of photos that he sent in his email.

Having received his email I thought I recognized the plane and did a search using the link to the old club website and found this picture the of the owner with his plane shown in the club's Mini Toledo show. It was Pat Dobson! See below

I then sent an email to Pat on 12-27-18. See below

Pat then sent his email reply and worked out a meeting with the hunter, and “the story ends happily ever after”. Talk to Pat Dobson for the rest of the story.....
